

Appln. No. 09/871,450
Amendment dated December 27, 2004
Reply to Office Action of June 28, 2004

Amendments to the Claims:

Please amend claim 41 and add new claims 43-45 as follows.
The following listing of claims will replace all prior versions,
and listings, of claims in the application.

Listing of Claims:

Claims 1-40 (Cancelled).

Claim 41 (Currently Amended). A contents transaction
network taxing method in which when a terminal of a contents
sender of a first region reads contents from a storage device
thereof at a request of a terminal of a contents receiver of a
5 second region and downloads the contents on the terminal of the
contents receiver via a network, a storage device and a display
device of the terminal of the contents receiver stores and
displays, respectively, the contents, the method comprising:

in response to ~~a~~ the terminal of ~~a~~ the contents receiver
10 ~~belonging to a first country or region~~ downloading the contents
via a ~~the~~ network from ~~a~~ the terminal of ~~a~~ the contents sender
~~belonging to a second country or region,~~ at least one of:

Appln. No. 09/871,450
Amendment dated December 27, 2004
Reply to Office Action of June 28, 2004

(i) causing a terminal of a tax collection authority having a right to impose a tax on the downloaded contents in the first country or region to collect the tax via the network from ~~a the~~ terminal of the contents sender ~~a tax payer who is liable to pay the tax;~~

(ii) causing the terminal of the contents sender ~~tax payer~~ to pay the tax via the network to the terminal of the tax collection authority; and

(iii) causing the terminal of ~~one of (a) the contents sender and (b) the tax collection authority~~ to notify ~~a the~~ terminal of the contents sender ~~tax payer~~ of information on the tax via the network.

Claim 42 (Previously Presented). A recording medium having recorded thereon a computer readable program for performing the method of claim 41.

Claim 43 (New). A tax collecting authority's terminal for use in a contents transaction network taxing system in which when a contents sender's terminal of a first region reads contents from a storage device thereof at a request of a contents receiver's terminal of a second region and downloads the contents
